Networking and Voice Gateway

The NG-VG is part of Alvarion's rich portfolio of WiMAX™ end user devices. This integrated wireless gateway features an optimal footprint with a maximal set of functionalities including Wi-Fi, voice and data connections (fax and printer) and Voice over IP (VoIP).

Ideal for Residential and SOHO Use

The Alvarion Networking and Voice Gateway (NG-VG) is a compact, standalone device designed to address the broadband access needs of residential and SOHO users. The NG-VG is packed full of powerful functions including wireless Internet via a broadband WAN connection, VoIP and IEEE 802.11 b/g Wi-Fi access. With a single socket powering the network gateway, the voice gateway and the outdoor CPE via Power over Ethernet (PoE), the NG-VG is especially handy for small enterprises and home offices.

Simplified Zero Touch Installation

The NG-VG comes with a browser-based setup and configuration utility for quick and easy installation, enabling wireless integrated home and SOHO gateway services on-the-fly.

Whether a home user or a SOHO, the NG-VG enables you to experience quality VoIP service and data connection quickly and conveniently - just connect the plugs and get started.

NG-VG Feature Highlights

- Single socket solution
- 1 WAN port transmitting PoE to an outdoor CPE
- Four data ports and two voice ports
- Wi-Fi antenna with IEEE 802.11 b/g WLAN support
- 3 VLAN IDs per device (1 data, 1 voice, 1 management)
